

Ruggedized Keyboard and Pointing Device

A close-up, low-angle shot of a black computer keyboard. The keys are black with white lettering. The 'Caps Lock' key is illuminated with a small green light. The 'Tab' key is visible to the left of the 'Caps Lock' key. The 'Shift' key is visible to the right of the 'Caps Lock' key. The 'Fn' key is visible in the bottom right corner. The keyboard is set against a dark, textured background.

The RK-88K and RK-108K ruggedized backlit keyboards are designed to be easily integrated into any design and mounted enclosure.

Why choose RK-88/RK-108

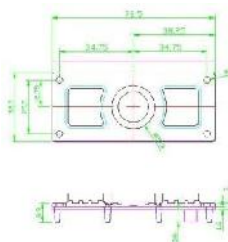

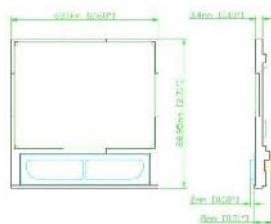

- 7
