

Titan

TITAN-T97^{ATX}

Industrial-grade Ruggedized Portable Computer Chassis
Designed for the Toughest Environments

Inspired by our broad ruggedized computing solutions for mission-critical applications, we are introducing our flag ship the Ruggedized Portable Computer T97.

Titan T97, is the flag-ship of the Titan series products, is cost effective and reliable. In addition to all the strengths of a T97, T97 offer a 20" active TFT LCD screen, providing users with larger display area for more information. Put it at the heart of your high-performance portable computer solutions. Designed for field and mobile applications!

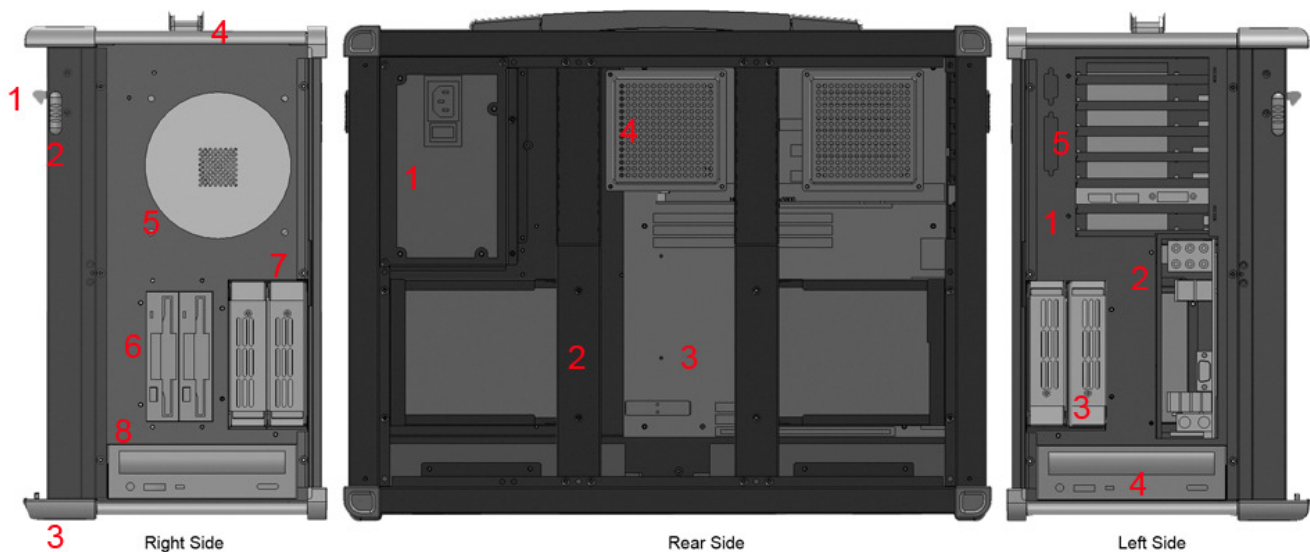

Why choose Titan-T97 ATX

- Extend ATX Platform
- 20" TFT LCD
- Standard PS2 Power supply
- Heavy Duty Aluminum chassis
- 7 full Length slots
- Full size mechanical key-switch keyboard
- 2x 5.25" open drive bay
- 4x 3.5" Removable drive
- 2x 3.5" open Drive Bay

Titan T97 all metal Rugged portable computer with Ext. ATX motherboard and 20" High resolution LCD Display

Titan T97 allows you to combine the latest in high-performance motherboards and add-in special function boards with a large display into a system that is compact and extremely rugged. It offers a cost effective solution to performance demanding portable computing applications.

The Titan T97 has the capability to accept a maximum of seven expansion cards (motherboard dependent) along with four 3½" removable Disk Drives tray, two 5¼" open Drive bay, two 3½" open drive bay, offering expansion capability unmatched by any other portable system. The all-aluminum Titan T97 chassis is the ideal solution for applications such as portable servers, network/communications testing, field data acquisition, remote field service, exploration, factory monitoring/automation, new technology demonstration, and much more.

1. Keyboard	5. Through hole for the power air-in	1. Ps2 Power Supply	1. 7 slots
2. Keyboard Latch	6. 3.5" open drive Bay	2. Card Stabilizer	2. Standard ATX motherboard IO windows
3. Silicon Rubber Conner Protector	7. Removable HDD Tray	3. Ext ATX motherboard	3. Removable HDD Tray
4. Handle	8. 5.25" Open Drive Bay	4. System Air out	4. 5.25" Open Drive Bay

OEM

The Titan has a very large space inside the chassis, therefore it could be installed a lot of the customer equipment
We could modify or create the brackets for the equipment
Dual system or redundant power and UPS power are the most application for it.
